

## **Duncan Real Estate**

### Description:

Dan has been in the "people business" for years and is a strong yet very friendly negotiator. He's lived in the Cowichan Valley most of his life and can give you honest feedback about various areas. This business (or most businesses for that matter) is more about people than anything else. People want service and people want you to "hear" what they're saying. Dan asks questions and then listens carefully so that he can help YOU get what YOU want. Personally, I have a long term goal. My goal is not just to sell your home for you or help you buy a home, it's to have you become a very happy client who will gladly refer me to your friends and family.

Here are just a few of the services you can expect from me...

- \* I will advertise your home in FULL COLOR in the Local newspaper until it's sold!

- \* I have hired a graphic designer bi-weekly to make my ads more appealing and very easy to read. Your home won't get lost with all the other real estate ads.

That means your home will STAND OUT! WE BRING VICTORIA BUYERS!

Our company has an impressive history and has more realtors in Victoria than any other company. PembertonHolmes has more than 200 realtors in Victoria alone and is actually the LARGEST REAL ESTATE COMPANY on Vancouver Island and is also the longest established Real Estate company in all of North America!

Pemberton Holmes was established in 1887. Joseph D Pemberton worked as a land surveyor for the Hudson's Bay Company in the mid 1800's to develop Fort Victoria a Country: Duncan

City: Duncan
